

INTERNATIONAL ALLIANCE OF INHABITANTS

The IAI is an independent network which has given a global voice to associations and urban social movements which defend the housing right in a friendly city. A place where you have time for yourself and your family, where you can play, cook, love, think, rest, live with dignity and build a new world together.

ZERO EVICTIONS

The IAI network combats social injustice, discrimination, conflicts and real estate speculation which aim to deprive inhabitants of their homes, using the weapon of solidarity. It has assumed the task of fighting against neoliberal globalization in its endeavors to destroy security of tenure and human dignity in countries all over the world, at both the local and institutional levels.

THE URBAN WAY

The "inhabitants" of the network constitute a unitary and independent space in which to claim the right to housing and the city, so that these issues may be promoted and shared by others, and thus assume an important role in the agenda of social and new global associations fighting for universal rights, as well as in the program of the local administrations, national governments and supra national institutions.

THE URBAN POPULAR UNIVERSITY

To encourage, to facilitate and to strengthen the organisational development of the various members of IAI, the network promotes the training of community leaders and grassroots members to work within their local contexts and at the global level, through the use of innovative instruments deriving from the exchange and co production of knowledge.

ABOUT THE IAI

The IAI, founded in 2003, is a sponsor of the Zero Evictions Campaign in many countries on every continent, is a promoter of the Urban Popular University, has launched the creation of the Unitary Space of Urban Social Movements counting over 200 members from more than 30 countries, which is only the first step in the creation of the Urban Way.

It has actively participated in the new global movement and is a member of the International Council of the FSM. It collaborates with the institutions, in particular with the Local Authorities Forum, with profound respect for the reciprocal autonomy of each organization.

Some of its members are in the UN-Habitat Advisory Group on Forced Evictions, participating in missions to investigate and mediate in areas considered hot spots for evictions.
